Dear Madame / Sir,

The population and dwellings Census is carried-out in Romania in the period 20-31 October 2011, having as the main goal to calculate the number of population. The census is carried-out in accordance to the provisions of the Government Ordinance no.36/2007, approved by the Law no.5/2008. The participation at the Census of the persons having a temporary or a permanent residence in Romania is compulsory.

The registration of the persons is made by the enumerators, at the residence of the people. The registration of the information is made exclusively in Romanian language, in the form of a dialogue between enumerator and each person. A set of questionnaires were translated in English, which are very useful for the people who are not Romanian language speakers to be able to understand the Census' questions and to give the correct answers. The enumerator will record all your answers ONLY on questionnaires printed in Romanian language. In the end of the interview, you are kindly asked to sign the questionnaires.

Hoping you will give a positive answer to this very important activity for Romania, we thank you.

Prof. univ.dr. Vergil VOINEAGU

President National Statistical Institute Romania
